EFFORTLESS WINDOW CLEANING

With no need for ladders or drying,
it's the easiest way to a spotless view.

PurePro AW-400X ultra pure
R.O. + DI system

SPOTLESS RV CLEANING

PURE WATER + A SPOT-FREE FINISH

PUREPRO AW-400X
ULTRA PURE R.O.+DI SYSTEM

A man in a blue cap and olive green shirt is using a long black telescopic pole to clean solar panels on a roof. The pole is connected to a PurePro water filtration system mounted on the side of a tan house. The system includes a blue and white unit with 'PUREPRO' branding, three white filter housings, and a large white storage tank on the ground. Red and yellow hoses connect the tank to the filtration unit. A large window is visible on the wall below the solar panels.

CLEAN YOUR SOLAR PANELS THE EASY WAY
